Learning theory

Competency

Learning theories

Competency description

I can create media-supported learning offerings based on learning theory considerations.

Level

Advanced competencies

Taxonomy level

2. Apply

Column/number in the document

A/65

Explanatory notes

This competency refers to the ability to create media-supported learning offerings based on learning theoretical considerations.

Rationale

Knowledge of learning theories is crucial to developing effective learning materials.

Example

Based on constructivism theory, an educator could incorporate interactive learning activities into their classroom where students actively construct knowledge.
