Taxonomy level

2. Apply

Column/number in the document

A/76

Explanatory notes

This competence refers to the fact that educators are able to prepare learning content in such a way that it corresponds to the learning objectives. This can include the creation of new media representations but also the adaptation of existing materials.

Rationale

The preparation of learning content is crucial to ensure that it meets the teaching goals and the needs of the students.

Example

An educator is able to select resources and adapt them to the desired learning goals.
