2. Apply

Column/number in the document

A/81

Explanatory notes

This competency refers to the ability to select and apply appropriate methods and strategies for integrating media into teaching. These can be both general didactic methods and specific subject-related approaches.

Rationale

The selection and application of suitable Media subject-related competencies is crucial to ensure that media are used sensibly and effectively in teaching.

Example

An educator selects and applies the flipped classroom concept to enrich lessons through the use of online learning materials.
