I can use media for location-based teaching.

Level

Advanced competency

Taxonomy level

2. Apply

Column/number in the document

A/105

Explanatory notes

This competency refers to the ability to use digital media and technologies that help support location-based learning processes.

Rationale

The use of media that supports location-based learning processes can promote students' understanding and participation.

Example

An educator could use VR glasses to use a virtual tour of historical sites or natural areas in their present lessons.
