Learning management systems (LMS)

Competency

Learning platforms and course management systems (LMS)

Competency description

I can use an existing LMS for my teaching activities.

Level

Advanced competency

Taxonomy level

2. Apply

Column/number in the document

A/107

Explanatory notes

This competency refers to the ability to effectively use a Learning Management System (LMS) or course management system for teaching activities.

Rationale

The use of LMS enables educators to structure lessons efficiently and to provide digital materials, tasks and communication options for students.

Example

An educator uses an LMS to provide course content, assessments, and discussion forums for their students.
