Learning evaluation

Competency

Learning evaluation

Competency description

I can describe the characteristics, advantages and disadvantages of digital tools for learning process diagnosis.

Level

Advanced competency

Taxonomy level

1. Know

Column/number in the document

A/119

Explanatory notes

This competency describes the ability to describe the properties of digital tools for learning process diagnosis. This also includes understanding the advantages and disadvantages of such tools.

Rationale

Understanding digital tools for diagnosing learning progress and needs is fundamental to being able to effectively support students.

Example

An educator describes to a colleague how he can track his students' learning process in a Moodle environment.
