Competency

Learner feedback for course improvement

Competency description

I can describe digital formats/tools that I can use to obtain targeted feedback on teaching and learning situations.

Level

Advanced competency

Taxonomy level

1. Know

Column/number in the document

A/128

Explanatory notes

This competency refers to the ability to describe and use digital formats and tools to obtain targeted feedback from learners on teaching and learning situations.

Rationale

Obtaining feedback is crucial to continually improving instruction. Digital tools make collection and evaluation easier.

Example

An educator could use digital surveys or online feedback tools to collect their students' feedback on various aspects of the lesson.
