Differentiation / individualization

Competency

Differentiation / individualization

Competency description

I can use digital media to differentiate/individualize learning processes.

Level

Advanced competency

Taxonomy level

2. Apply

Column/number in the document

A/132

Explanatory notes

This competency refers to the ability to use digital media to differentiate or individualize learning processes.

Rationale

Every student has different learning speeds, interests and requirements. The use of digital media allows teachers to customize lessons to meet the individual needs of each student.

Example

A learning environment could be designed to be exploratory. The students can process these individually.
