Dealing with learners’ prior knowledge/experience/preferences

Competency description

I can adapt digital tools and materials for teaching according to the learners' previously collected prior knowledge.

Level

Advanced competency

Taxonomy level

2. Apply

Column/number in the document

A/133

Explanatory notes

This competency refers to the teacher's ability to take into account the learners' existing prior knowledge, experience and preferences and to adapt digital tools and materials accordingly.

Rationale

By adapting digital resources to students' prior knowledge, teachers can optimize the learning process and ensure that students have relevant and meaningful learning experiences.

Example

At the beginning of a course, the educator could use a quiz to determine the student's level of learning in order to adapt his lessons accordingly.
