I can take into account copyrights and rights of use (especially sources, OER platforms, Creative Commons) when using digital media.

Level

Basic competency

Taxonomy level

2. Apply

Column/number in the document

A/11

Explanatory notes

This competence describes the ability to understand and observe legal aspects when using digital media. This involves knowledge of copyrights, source citations, open educational resources (OER) and various creative commons licenses.

Rationale

Compliance with the handling of copyrights and rights of use is of great importance in order to prevent infringements and disputes.

Example

Naming the sources for online seminars. OER platforms enable the legal and ethical use of educational materials.

Link to other competencies

All of the competencies listed under the „Digital resources“ section highlight different aspects that are important for the use and creation of digital media and resources. These competencies build on each other and together form a well-founded approach for the competent use of digital resources in education. These basic competencies aim to provide teachers with the necessary skills to use digital resources effectively. The aim is to gain/acquire a comprehensive understanding of the use of digital resources in education.

Tagging

Urheberrecht, Werknutzungsrecht, Lizenzen, OER, Creativ Commons, Quellenangabe, rechtliche Aspekte.
