Media and data awareness

Competency

Media and data awareness

Competency description

I can show the learners dangers of the Internet when submitting their personal data (e.g. e-mail attachments, online fraud, pornographic and illegal content) and they are directed to critically reflect these.

Level

Basic competency

Taxonomy level

2. Apply

Column/number in the document

A/148

Explanatory notes

This competence describes the ability of educators to show students what risks the award of personal data, such as bank data, can entail. The students should be sensitized when handling digital, personal data.

Rationale

An awareness of data protection, e.g., is of great importance in the digital world, especially since there can be no great damage.

Example

A pedagogue shows his students how they can protect their e-mail mailbox and thus e.g. detect fraudulent mails.
