Media effects

Competency

Media effects

Competency description

I can explain the effect of (digital) media on children and young people (media socialization).

Level

Basic competency

Taxonomy level

1. know

Column/number in the document

A/151

Explanatory notes

This ability describes the competence of educators, the impact of digital media on media socialization. This also includes analyzing, examining and discussing the psychological effects of the media.

Rationale

Media can also have negative impact on students. Teachers should also be able to clarify this critically and provide the students with an exemplary reflection on digital media.

Example

A teacher is planning a teaching unit. Here he brings his students to the topic. In a further hour it is planned that the students build a poster in group work to reflect on the disadvantages and dangers of digital media.
