

Role play in media-based education

Competency

Role play in media-based education

Competency description

I can adapt my teaching to the changes in educational contexts caused by digital media, as well as individual and collective learning.

Level

Basic competency

Taxonomy level

2. Apply

Column/number in the document

A/144

Explanatory notes

This competence describes the ability of educators to transfer their teaching methods to the digital age and to acquire skills to new media in order to adapt to their new role.

Rationale

Digital media play an increasingly important role in education. In order to be able to digitally convey the teaching material to the students, different skills and competencies are required.

Example

A lecturer stops an online teaching unit. Here he uses a collaborative tool to work on a document together with the students.
