Technical instruction

Competency

Technical instruction

Competency description

I can inform learners about the use of the digital tools used.

Level

Basic competency

Taxonomy level

2. Apply

Column/number in the document

A/131

Explanatory notes

This competence of teachers is crucial to ensure that students have necessary skills and knowledge to effectively use digital tools. The instruction in the technology may include the use of software, hardware or other digital resources.

Rationale

A clear and comprehensible instruction in the technology to be used is essential to ensure that the digital tools can be used effectively without being hindered by technical problems or uncertainties. This contributes to a smooth course of teaching.

Example

A lecturer offers his students a clearly structured guide so that they can download and install the video conferencing system for a planned online lesson.
